CONFIRMATION OF MINUTES
The minutes of the Meeting held Tuesday, 4 April 2017, as printed and circulated, be taken as read and confirmed on the Motion of M Jenkyn, seconded C Wiese.

1. Tourism & Economic Development Strategy
The revised Tourism & Economic Development Strategy, which includes the short, medium and long-term actions following the economic development strategy workshop in November 2016, was reviewed and approved by the TEDSC committee (attached as a separate document).

126/17 RESOLVED on the motion of Crs Driscoll and Rockliff that the revised Tourism & Economic Development Strategy be adopted by Council.

2. Investment Attraction Incentive Policy
The Lockhart Industrial Park Investment Attraction Incentives Policy, relating to the level of incentives/discounts which may be offered to entice buyers into the Lockhart industrial area, was reviewed and agreed upon by the TEDSC. The TEDSC agreed the Policy and the accompanying Investment Attraction Incentives Scheme Guidelines be recommended for approval (attached as separate documents).

127/17 RESOLVED on the motion of Crs Driscoll and Sharp that the Lockhart Industrial Park Investment Attraction Incentives Policy and the Investment Attraction Incentives Scheme Guidelines be adopted by Council.
3. Riverina Country Change Campaign
Lockhart Shire Council previously participated in the very successful Riverina Country Change project run by Riverina Regional Development Australia (Riverina RDA). The project effectively provided a promotional platform and lead management mechanism for those considering a move out of metropolitan areas.

While it was disappointing the project was not undertaken in 2016, RDA Riverina confirmed with the TEDO they were looking to revitalise the Country Change project. RDA recently contacted Council and advised they were seeking government funding to re-establish the Riverina Country Change Campaign to attract new residents and businesses to rural areas in the Riverina.

The TEDSC was supportive of the proposed campaign, which includes an initial 4-month promotional campaign, followed by ongoing web and social media promotion, and the distribution of leads to all participating councils. If the RDA’s application for funding is successful, the campaign will require a buy in from Riverina LGA’s, at a rate of $5,571 per council. RDA have confirmed no further buy in will be required for the project during the next two years.

As the TEDO has $3,000 allocated for participation in Country Change in the 2016/17 and 2017/18 budgets, no additional funds are required to support the project. Acknowledging the success of this project previously, the TEDSC recommended participation in the RDA Riverina Country Change Campaign should their application for funding be successful.

**Recommendation:** That Lockhart Shire Council participate in the Riverina Country Change Campaign should RDA Riverina’s application for funding be successful.

128/17 RESOLVED on the motion of Crs Driscoll and Rockliff that Lockhart Shire Council participate in the Riverina Country Change Campaign should RDA Riverina’s application for funding be successful.

4. Wall of Fame
The TEDO has received a quotation of $3,150 to create and install the seven successful nominees for the Lockhart Shire Walk of Fame in Walter Day Park, as previously resolved by Council. The TEDSC acknowledged the importance of continuing to build on the attractions in Lockhart Shire and supported the funding of this project through the balance of the TEDO’s 2016/17 promotion and development budget.

The nominated names are:
- John Herbert “Jack” Crawford (World Champion Tennis Player)
- Aubrey John Hodgson (International Rugby Player)
- Judy Kelly (Successful Actress)
- Nancy Mary Weir (Classical Pianist)
- Theodore Delwin Noffs (Founder Wayside Chapel/Ted Noffs Foundation)
- Don Kendell (Kendell Airlines)
- William Norman “Bill” Peach (Television Journalist/Presenter).

**Recommendation:** That the Lockhart Shire Walk of Fame project be undertaken.

129/17 RESOLVED on the motion of Crs Verdon and Day that the Lockhart Shire Walk of Fame project be undertaken.
5. **Go Local in Lockhart Shire**  
As part of the Go Local in Lockhart Shire campaign to encourage residents in Lockhart Shire to shop locally, the TEDO advised she is investigating the possibility of placing promotional beer coasters in the Lockhart Ex-Servicemen’s Club, The Rock Memorial Bowling Club, Yerong Creek Bowling Club and the Pleasant Hills Community Hotel (image attached). The TEDSC were supportive of the project, seeing it as a good way to connect to local people.

**Recommendation:** That the Go Local Lockhart Shire campaign be supported by distributing promotional beer coasters throughout the Shire as appropriate.

| 130/17 RESOLVED | on the motion of Crs Rockliff and Day that the Go Local Lockhart Shire campaign be supported by distributing promotional beer coasters throughout the Shire as appropriate. |

6. **Current TEDO projects**  
The TEDSC discussed the possibility of inviting Tim Fischer and another famous face from the Doris Golder Wool Art Gallery collection to participate in a promotion video. This would be great promotion for the Gallery. The TEDO advised she will contact the president of the Lockhart Historical Society to discuss and progress.

| Advertising | In addition to the advertising already undertaken by the TEDO regionally and nationally, a number of new opportunities for advertising include participation in the Newell Highway brochure, the North East Victoria/Southern Riverina map (driven by Albury Council), What’s on South West (Riverina Murray region), and ongoing inclusion in Narrandera Shire and Wagga Council’s new tourism brochures. |
| Business Survey | Survey is ready to be sent out to businesses in July 2017 |
| Billboard | The TEDSC wondered if billboard is still going to be effective. The TEDO will investigate any available information and has been in touch with Narrandera Council regarding installing on an identified property. |
| Drovers Way Touring Route | Updated project brief sent to all participating LGAs in order to progress the project. Meeting early July with all stakeholders to progress. |
| Lockhart Railway Station | The TEDO is investigating change of usage issues and will update the TEDSC as soon as information is available |
| Visitlockhartshire.com.au | The tourism website is looking good and has seen a marked increase over the past 12 months. Social media pages also receive strong support. The TEDO will be expanding to include main street business, weddings and photography. |
| SOL | TEDO has organised hot air balloon and helicopter flights over the weekend. |
| Love Lockhart Shire Photo Comp | Included in Lockhart Shire May radio campaign. Closing on 30 June. |
| Town Visitor Information Boards | Design has commenced by TEDO on the town and shire maps for information sign at The Rock and Lockhart. On completion of The Rock frame, TEDO will work with Lockhart Rotary to produce frame. |
| Lockhart Progress Association | TEDO looking at inclusive projects e.g. outdoor movie screening at Galore Hill and painting the Lockhart water tower which Progress could participate in and drive. |
The Rock Progress  The Progress Association are looking for funding for the Faerie Tree project. Working on astronomy project. B&S Ball for 2017.

Lockhart Museum  Continuing to work on collections, large grant application submitted. Solar and wi-fi installed.

The Rock Museum  Progressing on the sound system which will tell the story of The Rock.

The Rock Hill  Works by NPWS are ongoing. New interpretative signage has been installed at the entrance and looks great.

Promotional flags – main street shopping areas  Following discussions with shop owners in Lockhart the TEDO requested prices for installing 20 flags in the main street featuring the words Welcome to Lockhart to create a warmer welcome and an ‘open for business’ impression. The flags would be strategically placed along the street and business owners would put in and take out the flags. The TEDO will visit The Rock to see what opportunity exists for a similar project.

Lockhart Shire Tourism Logo  Temporarily on hold due to other projects.

The next TEDSC meeting will be held at Lockhart Council Chambers on 4 July 2017 at 6.00pm.

**Recommendation:** That the report be received and the recommendations contained therein be adopted.

131/17  **RESOLVED** on the motion of Crs Rockliff and Verdon that this report be received and the recommendations contained therein be adopted.

Staff Reports

STRATEGIC DIRECTION A: A Connected and Resilient Community

1. PUBLIC TOILET FACILITIES (DCCS/P60-005)

Executive Summary
At the May 2017 meeting, Council requested a report on the consideration of providing liquid soap dispensers in all the Shire’s public toilets.

Report
Council’s public toilets are currently at following locations:

- Lockhart
  - CWA Park
  - Walter Day Park
  - Cemetery
- The Rock
  - Recreation Ground
  - The Avenue, Urana St
  - Coronation Park
  - Cemetery
- Tootool
  - Roadside Reserve
- Yerong Creek
  - Stan Galvin Park.

Twenty-two (22) soap dispenser units would be required to fit out all these toilet facilities with soap dispensers. Good quality units can be sourced at $39 per unit. Installation can be facilitated internally with the hours charged to the overall cost of dispensers.

If soap dispensers are to be installed, it would be expected that paper towel or electric dryer also be installed.

Council is investigating the long-term feasibility of paper towels versus electric hand dryers. When these investigations are complete, a report will be provided to Council.

Integrated Planning and Reporting Reference
A2 - Our community services and facilities meet the needs of our communities.

Legislative Policy & Planning Implications
Nil.

Budget & Financial Aspects
- Soap dispenser units 22 @ $39 = $858 plus labour to install.
- There is no current budget allocation.

Attachments
Nil.

**MOVED** on the motion of Crs Verdon and Walker that the interim public toilet facilities report be noted.

**AMENDMENT** moved by Crs Douglas and Verdon that:

a) The interim public toilet facilities report be noted, and
b) The matter be deferred to the July meeting to enable further costings to be obtained.

The AMENDMENT was carried and became the motion.

**133/17** **RESOLVED** on the motion of Crs Douglas and Verdon that:

a) The interim public toilet facilities report be noted, and
b) The matter be deferred to the July meeting to enable further costings to be obtained.
STRATEGIC DIRECTION B: A Dynamic and Prosperous Economy

2. LOTS 1 TO 5 CARSON ROAD, THE ROCK

Executive Summary
Authority to execute Transfer documents under Council’s seal is required to facilitate the completion of the Contracts of Sale exchanged in relation to Lots 1 to 5 Carson Road, The Rock.

Report
As previously reported to Council, Contracts of Sale have been exchanged for all five lots in the first stage of Council’s residential subdivision at Carson Road, The Rock.

In accordance with a resolution of Council passed on 20 March 2017 a Deed of Covenant was prepared by Council’s solicitor for registering on the Titles of the subject Lots. The purpose of the Deed was to register a Restriction on Use on the Titles prohibiting further subdivision of the land into smaller lots.

It was necessary for this Restriction on Use to be put in place prior to any of the sales being completed. Council’s Solicitor has now confirmed that the Deed of Covenant has been registered on the Titles.

Contracts were exchanged on the basis of settlement being due in six months from the date of exchange. However, two of the purchasers have requested an earlier settlement. There is no reason why settlement cannot take place earlier now that the Restriction on Use has been registered.

In order to enable settlement to occur it is necessary to obtain Council’s authority to execute the relevant Transfer documents under Council’s seal. It is recommended that Council grant authority to execute the Transfer documents under seal for all five Lots so that the settlements can occur for all five Lots as they fall due. This will overcome the need to present a separate report to Council for each individual settlement.

Integrated Planning and Reporting Reference
B3.4.1 – Provide strong strategic direction for economic development within the Shire.

Legislative Policy and Planning Implications
Contracts of Sale have been exchanged for Lots 1 to 5 Carson Road, The Rock.

At settlement, and upon receipt of the balance of the purchase price, Council is required to provide the purchaser with the original Certificate of Title and a Transfer document executed under Council’s seal.

Budget and Financial Aspects
At the request of the purchasers, two of the five sales might now be completed before the end of the current financial year. The remaining three Contracts are scheduled for completion in 2017/18.

The proceeds from the sales will be placed in the Future Infrastructure Reserve to help fund the development of the next stage of the subdivision.

Recommendation: That authority be granted to execute the Transfers and related documentation for the sales of Lots 1 to 5 DP1220989 Carson Road, The Rock, under Council’s seal.

134/17 RESOLVED on the motion of Crs Driscoll and Sharp that authority be granted to execute the Transfers and related documents for the sales of Lots 1 to 5 DP1220989 Carson Road, The Rock, under Council’s seal.
STRATEGIC DIRECTION C: An Environment that is Respected and Protected

3. BIOSECURITY AND ENVIRONMENTAL REPORT (DEES/N10-025)

Executive Summary
Monthly report on biosecurity and environmental matters.

Report

Weeds

Property Inspections
The majority of inspections were carried out on residential properties, prompted by notification of a change of ownership, and notification of the presence of weeds from the general public.

The weeds most commonly found were Privet (Ligustrum sp.), Green Cestrum (Cestrum parqui), St John's Wort (Hypericum perforatum), and Horehound (Marrubium vulgare).

Other weeds found in lower frequency were Prickly Pear (Opuntia sp.), Bridal Creeper (Asparagus asparagoides), Tree of Heaven (Ailanthus altissima), Sweet Briar (Rosa rubiginosa), Lippia (Phyla canescens), Silverleaf Nightshade (Solanum elaeagnifolium), and Asparagus Weed (Asparagus sp.).

Spray Program
Priority for spraying has been given to the control of Horehound (Marrubium vulgare), Silverleaf Nightshade (Solanum elaeagnifolium), Bridal Creeper (Asparagus asparagoides), Sweet Briar (Rosa rubiginosa), St John's Wort (Hypericum perforatum), African Boxthorn (Lycium ferocissimum), Privet (Ligustrum sp.), Prairie Ground Cherry (Physalis hederifolia) and Feathertop Rhodes Grass (Chloris virgata) on roadsides within the Shire.

Pests

Common White Snail
In response to the recent precipitation, baits were applied to Fairview Lane on 16 May. Very few live snails were found to be present during baiting, yet later in the month larger numbers were found, possibly as a result of the warmer than normal autumn temperatures. Burning of the vegetation on Fairview Lane has been undertaken in June, to deplete the organic matter that is present, which provides both shelter and food for the snails.

Biosecurity Matters

Biosecurity Act 2015
The Biosecurity Act 2015 repeals ten pieces of legislation, including the Noxious Weeds Act 1993, with the aim of incorporating biosecurity implications at a state level. The Biosecurity Act 2015 is set to commence on Saturday 1st July. The Biosecurity Regulation 2017 is currently in draft, and a final version will be released in June.

The majority of supporting documents, including templates, are currently under development and will be available from July 1, through the Department of Primary Industries. These documents will be provided to ensure consistency throughout the State, rather than each council producing individual documentation.
From July 1, when the Biosecurity Act 2015 becomes enforceable, the term ‘noxious weeds’ will no longer exist. Instead, the Biosecurity Act refers to ‘biosecurity matter’, defined as any living thing (other than human), disease, prion, contaminant or disease agent which has the potential to cause a biosecurity impact, that is, an adverse effect on the NSW economy, the environment or the community. This may be various things, including stock diseases, insects, plant diseases etc., and therefore, various control authorities have power under the Biosecurity Act.

As for Councils, they are responsible for enforcing the NSW Biosecurity Act 2015 and regulations only in respect to weed management. This includes activities such as: conducting weed inspections on public and private property; inspecting and controlling weeds in high risk pathways and sites; providing education, training and resources for both the public and staff in relation to weed management; administering and ensuring compliance of the regulatory tools; responding to breaches of the Act; and notifying and reporting on weed activities to the Biosecurity Information System (BIS).

Fortunately, the Biosecurity Act 2015 claims to provides modern, flexible tools and powers that allow effective management of pests and diseases, weeds and contaminants across the landscape regardless of whether it is private or public land. It also provides for risk based decision making that enables a flexible approach to responding and managing biosecurity risks regardless of the type of biosecurity matter.

For clarification, weeds which are considered as prohibited matter are now listed in the Biosecurity Act 2015. Prohibited matter is biosecurity matter that is considered as of extreme or high risk. The list includes State priority weeds that are not present in NSW, or may be of national interest, and the objective is to prevent these weeds from establishing in NSW.

State priority weeds are listed in the Biosecurity Regulation 2017, and are present in limited distribution and abundance in some parts of the State, and where the elimination of the biosecurity risk posed by these weeds is reasonably practicable. Other weeds listed in the Biosecurity Regulation 2017 are State priority weeds which are widely distributed in some parts of the State. While broad scale elimination is not practicable, minimization of the biosecurity risk posed by these weeds is reasonably practicable and containment is the management objective.

The Riverina Regional Strategic Weed Management Plan 2017-2022 (the Plan) lists regional priority weeds for the Riverina region, with varying degrees of biosecurity risk, ranging from weeds that are not currently found in the region, to weeds present in limited distribution and abundance, to broad scale weeds that can be contained, as well as weeds that are of concern to the region.

The Plan (attached) has been developed by the Local Land Services in conjunction with Council and associated State Government Agencies in the Riverina. In May, the Riverina Local Land Services Board endorsed the Plan, and Council is required to do the same, to demonstrate our commitment to weeds in the region.

In addition to these weeds lists, Lockhart Shire Council will be developing an additional list specific to our Shire. This local priority weeds list will be developed in consultation with the community, following implementation of the new Act. Inclusion of weeds in this list will be based on:
- those species which are absent from the Shire but present regionally
- those that Council has previously committed extensive expenditure and labour to ensure control and management;
- and those that present invasive pressures from neighbouring shires.

To support implementation of the new legislation, Council’s Environmental Officer completed ten online Biosecurity NSW Legislation Training modules provided by the NSW DPI. The modules included: Legislation and the Biosecurity Act 2015; Biosecurity Duties and Risk Based Decision Making; Biosecurity Emergencies; Management Tools; Powers of Authorised Officers; Enforcement and Compliance; Accreditation, Certification and Auditing; Prohibited Dealings, Biosecurity Registration and Traceability Systems; Fees, Cost Recovery Orders and Compensation; and Permits.
Training involved a tutorial for each module, as well as comprehension of each study guide, followed by an assessment task. This online training is available to the general public. This training was then complimented by face to face training provided by NSW Department of Primary Industries staff in early June, to which the Environmental Officer and Manager Environmental Services attended. The training was crucial in learning how to interpret and apply the new legislation.

**Environmental Matters**

**Fire, Fauna, Weeds and Ferals Conference**

In May the Environmental Officer attended the Fire, Fauna, Weeds and Ferals Conference. Topics that were explored included: the flammability of native and introduced plant species; the predation of feral animals following a fire event and their impact on native fauna; weed species response to a fire event with respect to various fire intensities; fire intensity implications on the soil seedbank for both native and weed species; weed species response to combinations of chemical application and fire regime; ecological burns; cultural burns; implications for fauna through the loss of habitat and protection from prescribed fires; and community engagement. These topics will be integrated into the management of high conservation areas, incorporated into the management for controlling weeds, and considered in future project management.

**Galore Hill Scenic Reserve**

The final operation for the Galore Hill Scenic Reserve Rehabilitation Project occurred on the 16 May. Direct seeding occurred in the designated degraded site, containing seed from species that are locally native to the area, and consists of mostly shrub species as this is the layer of vegetation that is largely absent from the site.

**Integrated Planning and Reporting Reference**

C1.4 – Decreased occurrence, spread and impact of weeds and pests throughout the Shire.

**Legislative Policy and Planning Implications**

Weed inspections and associated activities are carried out in accordance with the Noxious Weeds Act 1993, the Biosecurity Act 2015 and associated regulations.

**Budget and Financial Aspects**

Will be conducted within Councils allocated budget.

**Recommendation:** That:

a) Council adopt the Riverina Regional Strategic Weed Management Plan 2017-2022, and

b) The information in this report be noted.

---

135/17 **RESOLVED** on the motion of Crs Douglas and Walker that:

4. LETTER OF PETITION – 32 FERRIER STREET, LOCKHART

Executive Summary
Council has received a letter of petition regarding the condition of the residence at 32 Ferrier Street, Lockhart.

Report
Council has received a letter of petition regarding the condition of the residence at 32 Ferrier Street, Lockhart. Staff are aware of the condition of this property through previous complaints and have also had previous discussions with the owners. Staff have since met with the owners of the property and are working through options to resolve the matter.

In addition, staff are preparing an "Enforcement Policy" and "Local Orders Policy" to assist in dealing with matters like the one raised in the petition. This will be the subject of a detailed report to Council at the July 2017 meeting, at which an update regarding 32 Ferrier Street will also be provided.

5. ENGINEERING REPORT (DEES/T10-005)

Executive Summary
Monthly report on engineering matters.

Background Information
(a) Works Report: Construction projects have been progressing well despite cooler weather and some recent rain. The Urana Lockhart Road Causeways Upgrade project is almost complete with sealing and tidy up works to finish off. Grubben Road Upgrade is now completed. Resheets of various gravel roads is well advanced and due for completion shortly.

Two grader crews are currently on re-sheets, and then will move to maintenance grading. Council is slightly behind scheduled maintenance grading due to a larger works program this year as all crews have undertaking construction projects. It is envisaged that this will be caught up over the coming months.

Resealing programme for 2016/17 is now also complete.

Updated 12-month programme will be presented at the meeting.

Concrete crew is continuing with maintenance of footpaths, drainage structures, kerb and gutter as well as signs maintenance throughout the Shire.

Only major PAMPS project this year is the sealing/completion of path from The Rock to The Rock Hill Nature Reserve. This work has now commenced and due for completion shortly.

(b) Flood Mitigation: Refer to Major Projects update.

(c) Road Safety Officer: Nil to report.

(d) Traffic Committee: Traffic Committee has approved safety and warning signage for the newly sealed Grubben Road, as well as reported trouble spots on intersection of Tinamba & Wattles Lanes, Yerong Creek Mangoplah Road near WWCC boundary and Bidgeemia Road near JR Smith Lane.

(e) Lockhart Local Emergency Management Committee: Next meeting is scheduled for Friday, 16 June 2017.

(f) Fleet: The jetpatcher has been delivered. The emulsion tank is now expected to be delivered before the end of June 2017.

6. **MAJOR PROJECTS UPDATE**

**EXECUTIVE SUMMARY**

Update on Council’s current major projects.

**Report**

Council is currently undertaking a number of major projects and the status of each of these is as follows:

a) **Swimming Pools Upgrade**: Construction documents and engineering plans for The Rock pool buildings have commenced and are expected to be completed by the end of June 2017. Development Approval (DA) has been granted for the amenities upgrade at Lockhart pool.

b) **The Rock Sewer Extension**: The survey and design works have been completed. The final documents are being compiled and expect to go to tender by June 2017.

c) **The Rock STP Tertiary Ponds Upgrade**: The construction work on the new ponds has been completed with plumbing of the pipe work nearly completed and the security fencing to be done in the next few months.

d) **Demolition of Voluntary Purchase Properties**: Demolition work of the Day Street house at The Rock is completed. Current grant funding allows for one more property to be purchased at each of Lockhart and The Rock in 2017/18.

e) **Flood Mitigation Construction**: It is expected that staff will call for tenders for the construction works for the Lockhart Levee by July. There is some administration works remaining regarding Aboriginal Land Claim on the Commons that need to be completed before construction works can commence. The Rock Streven Street drainage works remains on reserve list for funding from OEH.

7. **PARKS AND GARDENS REPORT**  

*Executive Summary*

Monthly report on parks and gardens.

**Report**

**Playgrounds**

A replacement spring rocker and new powered coated platforms to replace the split and weathered plastic-coated platforms on the existing equipment have been delivered for installation at Stan Galvin Park; completing the upgrade of the playground which also included a new double swing set and Cellula Rope Unit.

New platforms have been installed at Lockhart Recreation Ground and a four-way spring rocker has been delivered. The installation of the new rocker will be the culmination of the refurbishment that started last financial year.

New spring rockers have also arrived to replace the two aging rockers at Yerong Creek Recreation Ground.

A replacement slide also had to be ordered for Wal Alexander Park; the old slide had deteriorated and became brittle.

A rotary hoe has been used to rejuvenate the softfall at all Shire playgrounds.

**Galore Hill Nature Reserve**

Work to redefine the Morgan’s Cave and Summit to Saddle walking tracks has continued, including installation of signage stating estimated walking times and directional arrows. The refurbished geodetic sign has been reinstalled at the top of the lookout tower.

Crews have also been assisting with another granted funded project to remove dead shrubs and trees in the old plantation sights to clear the ground for direct seeding of indigenous species. The plant markers for these specimens are also being removed along with some old fencing.

**Parks and Gardens**

Irrigation systems have been turned off at most sites. Hand watering has been reduced due to rain and cooler temperatures. Routine garden maintenance is being conducted including regular weeding, spraying, pruning, redefining garden edges and some replacement planting and transplanting. The Shire’s roses are still flowering well and being deadheaded regularly. Winter pruning will be scheduled toward the end of July and into August.

**Tree**

The annual pruning of the Shire’s many Peppercorns has been completed. Pruning of urban lanes and formative pruning of smaller street trees will continue throughout winter.

**Mowing and Slashing**

Milbrulong, Lockhart airstrip and Osborne Recreation Ground mowing has been completed. Pleasant Hills and Munderwaddery Cemetery will be scheduled in the next month, weather permitting. Mowing and edging of most irrigated areas is still being conducted fortnightly, growth has started to slow however.

**Weed Control**

Regular weed control is being conducted on Council property including hand spraying and weeding of gardens. Khaki weed and catheads have been prevalent this season due to regular rain throughout most of summer; known problem areas will be noted for attention next season.
**General Maintenance**

Regular duties include inspections of parks and public facilities to remove litter, clean BBQ’s, check for damage or vandalism, clear footpaths and empty public and roadside bins. Most areas undergo inspections twice per week, including Galore Hill, where crews also clean and check the toilet facilities. Contract cleaners attend to the public toilet facilities in Lockhart, The Rock and Yerong Creek. Playgrounds in the shire are being inspected regularly as per Australian Standards, with any maintenance being noted and completed as necessary.

8. **2017 NSW LOCAL ROADS CONGRESS**

(DEES/P55-010)

**Executive Summary**

The Director of Engineering and Environmental Services and Mayor Schirmer attended the NSW Local Roads Congress in Sydney on 5 June 2017.

**Report**

IPWEA holds an annual NSW Local Roads Congress at Parliament House in Sydney. This year’s congress was attended by the Director of Engineering and Environmental Services and Mayor Schirmer on Monday 5 June 2017.

The communiqué of the conference is attached for information. There were a variety of speakers from the Office of Local Government, Roads and Maritime Services (RMS), MP’s, Infrastructure NSW, Transport for NSW, as well as Council Engineers.

One of the main themes to come out of the Congress is for Councils to have a ‘Road Safety Plan’.

The Congress also provided opportunity for both Director and Mayor to network with NSW Government staff on various funding wishes of the Shire, as well as being able to keep Lockhart Shire at the forefront of the State Government's minds.

10. VARIATION TO DCP – BUILDING LINE SETBACKS (MES/P25-005)

Executive Summary
Council have received a request for variation to the building controls in the Lockhart Development Control Plan 2016 (DCP), for works proposed at 24 Yerong Street, The Rock.

Report
The Lockhart DCP has been introduced with the aim of providing efficient development that positively responds to the character of existing villages. In this instance, building line setbacks have been adopted to allow for correct siting of buildings relative to each other, the public domain and natural features, while also maintaining safety, privacy, noise amelioration, views, streetscape, provision of services, retention of vegetation and protection of sensitive areas.

An existing residence at 24 Yerong Street, The Rock, pre-dates these setback requirements, with a current reduced setback of 4.2m (approx.). The current requirement for block of this size is 6.5m.

The owner plans to either extend the existing dwelling, or demolish and re-build to a similar design while maintaining a similar reduced setback - Council’s resolution being the determining factor. The owner’s preference is to demolish and rebuild with a reduced building line setback. A development application will be lodged based on Council’s decision.
Under the DCP, an extension to the existing dwelling is not subject to the building line setback controls from the property frontage. A 3m setback from the side boundary will still apply, however, as the land is a corner allotment. Meanwhile, if the dwelling is demolished and re-constructed, the DCP does require a complying building line setback of 6.5m.

The land at 24 Yerong Street, The Rock is not an unreasonable size, measuring 1000m$^2$. However, the owner argues that the position of existing sheds, and the mandatory 3m side setback from Wilson Street, leaves a far smaller building envelope for the dwelling, and hence the reason for wanting a reduced building line setback from the front. Before determining the request, Council should consider the following:

**Precedence**
In Yerong Street, there are no buildings that comply exactly with the 6.5m setback. Some measure to only 4.2m, while others extend to over 8m. No consistency applies, and this inconsistency extends around onto Wilson Street as well. Most of these existing homes pre-date Council’s building line setback controls.

**Impacts on street aesthetics**
The existing dwelling at 24 Yerong Street, The Rock, is constructed with a reduced building line setback of 4.2m, and while this is substantially less than the control requirement, the large nature strip and street trees maintain a wide street appeal without impacting on vision and safety of road users. From a road user’s perspective, the variation in building line setbacks is not immediately obvious, and is more largely influenced by landscaping and fences to property frontages.

**Objectives of the control requirements**
The nature strip fronting the properties along Yerong Street does not have a footpath, and nor does it contain any of Council’s critical utilities. The average sizes for lot frontages are 25m, and lot sizes are equal to or greater than 900m$^2$, thereby providing adequate light, ventilation and privacy around residential buildings.

Based on this information, and considering the current location of the dwelling, it would be difficult to justify denying the request for a reduced building line setback of 4.2m from Yerong Street.

The Draft Budget for General Fund provides for a surplus of $10,114.00.

The Office of Local Government released a circular on 18 May 2017 advising the Maximum Interest on Overdue Rates and Charges. In accordance with section 566(3) of the Act, it has been determined that the maximum rate of interest payable on overdue rates and charges for the 2017-18 rating year will be 7.5%.

Since the Draft Budget went on public exhibition, Council has been notified that its REROC membership for 2017/18 has increased by approximately $3,500 to $17,164. This is as a result of fewer member councils’ due to mergers within the REROC council area.

The fees payable to the Mayor and Councillors from 1 July 2017 as determined by Council at its meeting held on 15 May 2017 have also been incorporated into the draft budget.

On the 30 May 2017, the NSW State Premier released a media statement informing the implementation of the Fire and Emergency Services Levy (FESL) will be deferred. So, for 2017/18 Council Rates Notices will not have any FESL charges. The FESL will continue to be collected via insurance policies for 2017/18.
Council’s Rating Structure will be changed for 2017/18. The Special General Rate, Bushfire Services, will be removed and the funds generated will be incorporated into remaining categories.

In the recent Federal Budget, the Australian Government will bring forward the first two instalments of the estimated 2017-18 Financial Assistance Grants and resume annual indexation of CPI increases from 2017-18. This will not affect the amount of Financial Assistance Grants (FAGS) Council receives between now and 30 June 2018. However due to the advanced payments of FAGS, this will have significant implications to Council’s reported revenue and profits in Council’s Audited Statements for 2016/17 and 2017/18. With the most noticeable impact being on any benchmark ratios which have been used in the Fit for the Future process as indicators of Council’s performance.

13. THE ROCK TO BOREE CREEK RAIL LINE

Executive Summary
Council is advocating for the upgrade of The Rock to Boree Creek rail line to heavy rail.

Report
Council has been advocating for some time, including soliciting letters of support from neighbouring councils, for the upgrade of The Rock to Boree Creek rail line to heavy rail.

The Rock to Boree Creek railway branch line is currently light weight rail which will not allow wagons to be loaded to their maximum axle weight.

Upgrading the rail line to heavy rail will create productivity efficiencies as well as reduce the amount of grain transported on Shire roads.
At the meeting held on 6 February 2017 it was resolved that Council:

a) “Fully supports the upgrading of The Rock to Boree Creek rail line to heavy rail to enable the more efficient and cost-effective use of rail infrastructure.

b) At the appropriate time submit a submission to Transport NSW outlining the benefits of the upgrade.”

Fixing Country Rail is a program to fund rail infrastructure enhancement projects that eliminate connectivity constraints on the NSW regional rail network and reduce the cost to market for regional businesses. It is designed to complement the Fixing Country Roads program to build an efficient freight transport network in regional NSW.

Expressions of Interest for the first full round of Fixing Country Rail opened on 15 May and close on 14 July 2017.

Anyone can submit a Fixing Country Rail project proposal in response to the call for Expressions of Interest but funding can only be awarded to rail infrastructure owners and managers.

According to the Program Guidelines Fixing Country Rail will accept two types of applications as follows:

1. Applications for funding for projects on the State-owned network submitted by Transport for NSW and ARTC; and
2. Proposals for eligible rail infrastructure upgrades on the State-owned network submitted by third parties including industry, industry associations and councils.

Council falls within the second of the two categories described above as an interested third party. Accordingly, and in accordance with Council’s resolution of 6 February 2017, a project proposal has been prepared and is proposed to be lodged under the Fixing Country Rail program.

A briefing paper advocating for the upgrade and containing the same information as is proposed to be submitted to Transport for NSW under the Fixing Country Rail program, has also been provided to the recently appointed NSW Infrastructure Co-ordinator during a meeting with him earlier this year. A copy of the briefing paper is attached.

Integrated Planning and Reporting Reference
E4.1 - Ensure a collaborative approach to the provision of services and support.
E4.1.2 – Support in the attraction of funding to facilitate identified priorities.

Legislative Policy & Planning Implications
Not applicable.

Budget & Financial Aspects
Not applicable. Funding under the Fixing Country Rail Program can only be awarded to rail infrastructure owners and managers.

14. POLICY 1.5 PRIVACY MANAGEMENT PLAN (GM/C70-025)

Executive Summary
Council’s current policy regarding privacy and personal information was last reviewed by Council in 2009. A revised Policy 1.5 Privacy Management Plan is presented for Council’s consideration.

Council’s existing Policy 1.5 is premised on the Model Plan issued in June 2000. However, a revised Model Privacy Management Plan was issued by the Division of Local Government in January 2013.

Report
At its meeting held on 6 February 2017 Council endorsed a process for the review of existing policies and development of new policies. The process included Delegating authority to the General Manager to update existing Policies that require only minor amendments and do not alter the substance or intent of the Policy.

As part of the ongoing process of reviewing Council’s policies, Policy 1.5 Privacy Management Plan has been reviewed. As the proposed changes are significant and more than merely minor amendments, the revised Policy is tabled for Council’s consideration.

The Privacy and Personal Information Protection Act 1998 requires all councils to prepare a Privacy Management Plan.

The Division of Local Government (now the Office of Local Government) previously prepared a Model Privacy Management Plan for Local Government in consultation with the Privacy Commissioner and LGNSW. Councils have the option of adopting the Model Plan or developing their own plan.

Council’s existing Policy 1.5 is premised on the Model Plan issued in June 2000. However, a revised Model Privacy Management Plan was issued by the Division of Local Government in January 2013. It is considered appropriate that Council formally adopt the most recent Model Privacy Management Plan for Local Government and that Policy 1.5 be amended to reflect that.

Integrated Planning and Reporting Reference
E6.1 – Provision of excellent leadership and governance within Council.
E6.1.1 - Meet all governance and regulatory requirements in the conduct of council's operation.
E6.1.1.a - Ensure all statutory policies, codes and plans are adopted by Council and reviewed regularly.
E6.2 – Provide responsible management of knowledge resources.

Legislative Policy & Planning Implications
Section 33 of the Privacy and Personal Information Protection Act 1998 requires all councils to prepare a Privacy Management Plan.

Budget and Financial Aspects
Nil.

15. POLICY 1.7 FRAUD CONTROL POLICY (GM/C70-025)

Executive Summary
A revised Policy 1.7 Fraud Control is presented for Council’s consideration.

Report
At its meeting held on 6 February 2017 Council endorsed a process for the review of existing policies and development of new policies. The process included delegating authority to the General Manager to update existing Policies that require only minor amendments and do not alter the substance or intent of the Policy.

As part of the ongoing process of reviewing Council’s policies, Policy 1.7 Fraud Control has been reviewed. As the proposed changes are significant and more than merely minor amendments, the revised Policy is tabled for Council’s consideration.

A revised Policy 1.7 Fraud Control is attached. The revised Policy includes a new definition of “fraud” to accord with the definition contained in Australian Standard 8001-2008 on fraud and corruption control. This definition has been used by the NSW Audit Office for the development of its Fraud Control Improvement Kit. ICAC’s definition of ‘corruption” has also been adopted for the purposes of the revised Policy.

The revised Policy incorporates strategies for the prevention, detection, reporting and investigation of fraud. It is noted that some of these strategies refer to a process of internal audit. Whilst Council does not currently have an internal audit committee and internal audit function as such, this will become a mandatory requirement as a result of recent amendments to the Local Government Act.

Discussions are currently underway with several neighbouring councils regarding a collaborative and resource sharing approach to engaging internal audit services. This is also the subject of a grant application to the Office of Local Government’s Innovation Fund.

16. POLICY 1.17 COUNCILLORS ACCESS TO INFORMATION  

Executive Summary
The Model Code of Conduct issued by the Office of Local Government and adopted by Council on 20 March 2017 deals specifically with the issue of Councillors’ access to information thereby superseding Council’s own policy on the matter.

Report
At its meeting held on 6 February 2017 Council endorsed a process for the review of existing policies and development of new policies. The process included delegating authority to the General Manager to update existing Policies that require only minor amendments and do not alter the substance or intent of the Policy.

As part of the ongoing process of reviewing Council's policies, Policy 1.17 Councillors Access to information has been reviewed and it is recommended that it be rescinded.

Council’s current policy regarding Councillors’ access to information was adopted in April 2011 and has not been reviewed since that time. In the meantime, a new Model Code of Conduct has been issued by the Office of Local Government in 2015 and adopted by Council on 20 March 2017.

The Code of Conduct includes a specific section dealing with Councillors access to information thereby superseding Council’s own policy on this matter. The relevant section of the Code of Conduct (Part 7, page 15) provides greater clarity, including making a distinction between a Councillors right to information to enable them to perform their civic duties as well as their right to information as a private citizen.

An extract from the relevant section of the Code of Conduct states as follows:

- “The general manager and public officer are responsible for ensuring that members of the public, councillors and administrators can gain access to the documents available under the Government Information (Public Access) Act 2009.
- The general manager must provide councillors and administrators with information sufficient to enable them to carry out their civic office functions.
- Members of staff of council must provide full and timely information to councillors and administrators sufficient to enable them to carry out their civic office functions and in accordance with council procedures.
- Members of staff of council who provide any information to a particular councillor in the performance of their civic duties must also make it available to any other councillor who requests it and in accordance with council procedures.
- Councillors and administrators who have a private (as distinct from civic) interest in a document of council have the same rights of access as any member of the public.”

The Code of Conduct also deals with the use and security of confidential information, personal information and access to council resources, all matters which are not covered by Council’s own Policy.

In lieu of the most recent version of the Model Code of Conduct specifically addressing the issue of Councillors access to information, and bearing in mind that Council has formally adopted the Model Code, it is considered that Policy 1.17, a copy of which is attached, is no longer necessary and should be rescinded.

Legislative Policy & Planning Implications
Section 440 of the local Government Act provides that a council must adopt a code of conduct (the "adopted code") that incorporates the provisions of the model code.

The adopted code may include provisions that supplement the model code.

A council’s adopted code has no effect to the extent that it is inconsistent with the model code as in force for the time being.

17. POLICY 1.20 “RELATED PARTY DISCLOURES” (GM/C70-025)

Executive Summary
The new Policy 1.20 “Related Party Disclosures” is presented for adoption following public exhibition of the document.

Report
At the Council meeting held on 18 April 2017 Council endorsed a new Policy 1.20 “Related Party Disclosures”, for public exhibition.

In accordance with Council’s resolution the amended Policy was publicly exhibited for a period of 28 days. Copies of the document were made available on Council’s website as well as Council’s office and Post Offices within the Shire.

No submissions were received following the public exhibition.

The new Policy is now presented for adoption by Council. A copy of the Policy is attached.

Integrated Planning and Reporting Reference
E4.2.1a – Continue to develop sound financial management policies and practices that help ensure Council’s long term financial sustainability.
E6.1.1 – Meet all governance and regulatory requirements in the conduct of council’s operations.
E6.1.1a - Ensure all statutory policies, codes and plans are adopted by Council and reviewed regularly.
Legislative Policy & Planning Implications

The Australian Accounting Standards Board has determined that, from 1 July 2016, Accounting Standard “AASB 124 Related Party Disclosures” will apply to government entities, including local governments.

In the annual financial statements for 2016-17, councils must disclose related party relationships, transactions and outstanding balances, including commitments.

The new Policy 1.20 will be incorporated into Council’s Policy Manual following adoption.

18. ACTING GENERAL MANAGER

(GM/S30-005)

Executive Summary

The impending absence of the General Manager on annual leave will necessitate the appointment of an Acting General Manager for a temporary period.

Report

The General Manager will be absent on leave from 17 July 2017 until 9 August 2017.

It is intended to provide both Directors with the opportunity to act in the role of General Manager during periods when the General Manager is on leave as this is seen as an important professional development opportunity for Directors.

On this occasion, it is proposed that the Director Engineering and Environmental Services be appointed as the Council’s Acting General Manager.

Integrated Planning and Reporting Reference

E4 - Provide strong and effective leadership.

Legislative Policy and Planning Implications

Section 334 of the Local Government Act 1993 provides that the Council must appoint a person as its General Manager.

Budget and Financial Aspects

Provision is made in the annual budget for the payment of higher duties when senior staff, managers and supervisors are absent on leave.
